The Fall 2012 Conference contains 5.75 hours of technical contact time and is eligible for ABIH CM Credit. We estimate 1 CM points based on the technical content time and ABIH guidelines.

**ABOUT THE PDC PRESENTERS**

**Denese Deeds** is co-founder of Industrial Health & Safety Consultants, Inc (IH&SC) where she is the Director of Chemical Regulatory Services. In that function she prepares SDS, labels and other hazard communication documents and assists companies with overall chemical regulatory compliance. She has 39 years in the field and is a recognized expert in her field. Prior to founding IH&SC she worked as an industrial hygienist for General Electric and Westinghouse. Denese is certified in the Comprehensive Practice of Industrial Hygiene by the ABIH. She is a Fellow of the American Industrial Hygiene Association (AIHA) and a member the Society for Chemical Hazard Communication (SCHC). Denese's current passion is the work she is doing to develop a registry for SDS and label authors with the AIHA Registries Programs and SCHC.

**Donna Heidel**, MS, CIH coordinates the Prevention through Design (PtD) program at CDC/NIOSH. She coordinates research and facilitates the translation to practice that will reduce occupational injuries and illnesses among workers by eliminating hazards and minimizing risk during the design process. She chairs the PtD Council and fosters collaborative partnerships with labor, industry, government, and other stakeholders and coordinates the activities to achieve the five strategic goals identified in the PtD strategic plan. Her current PtD activities include the development of the framework and decision logic to determine occupational exposure bands for chemicals without authoritative OELs, identification of tools to support the inclusion of considerations for workers into engineering design, and the development of guidelines for the safe synthesis of nanoparticles and associated products, using a prevention-through-design approach. Prior to NIOSH, Ms. Heidel gained 20 years' experience in the pharmaceutical industry, first at Merck and Co, Inc. and later at Johnson & Johnson. Ms. Heidel has an M.S. in industrial hygiene from Temple University. She is a board-certified industrial hygienist and an AIHA fellow.
